Matte Clay

Is having a moment.

Warm Up Your Bathroom.

Cool greys and crisp whites have dominated bathroom design for years, but the latest interiors are embracing something softer. Enter **Matte Clay**, a warm, earthy tone that brings depth and character to modern bathroom spaces.

Inspired by natural materials and grounded colour palettes, the **Contura II Matte Clay collection from Caroma** introduces a subtle terracotta warmth that feels both contemporary and timeless. The sculptural shapes of the Contura range pair beautifully with warm stone benchtops, brushed metals and textured finishes, creating a bathroom that feels calm, inviting and considered.

Whether you're planning a full renovation or simply looking to introduce a statement piece, Matte Clay offers an elegant way to bring warmth and personality into the heart of your bathroom.

Play With Clay.

Designing a bathroom around Matte Clay is all about balance. The warm tone of the **Caroma Contura II Matte Clay collection** works beautifully as a feature element, so the key is pairing it with materials and finishes that enhance its natural warmth.

Start with a soft, neutral foundation such as warm stone, terrazzo or light textured tiles. These tones allow the clay colour to stand out without overwhelming the space. Timber cabinetry or shelving can add another layer of warmth and help

another layer of warmth and help create a relaxed, spa-like feel.

For tapware and accessories, brushed finishes like brushed nickel, brushed brass or gunmetal complement the earthy palette particularly well. Finally, soften the space with organic touches - think curved mirrors, textured towels and natural greenery.
